

ScaMag DAC-3 In Tank Emitter Water Treatment Schematic Installation

In Tank Emitter

- In tank emitter come with 1-1/4" BSP male thread PPR adaptor
- The 1-1/4" BSP female adaptor should be welded on the tank top.
- So that, the in tank adaptor can be matched and screw into the tank.
- The rod of in tank emitter must not touch the feedwater tank body.

Emitter Return

- Emitter return must weld or mechanical tighten to feedwater tank body.
- Make sure it's electrically connect to feedwater tank.
